SUMMARY

Aspiring Software Developer with internship experience at FlexiSAF Edusoft Limited, contributing to responsive UI development and cross-functional collaboration. Skilled in Python, C++, and PHP, with a focus on building efficient, user-centric applications.

EXPERIENCE

Graphic Design Intern

Wale Lab

July 2025 - September 2025, Remote

- Developed visually compelling graphics and layouts for digital and print media, aligning with brand guidelines to enhance overall project impact for clients.

Web Design Intern

FlexiSAF Edusoft Limited

May 2025 - August 2025, Remote

- Assisted in designing and updating user-friendly web interfaces for educational platforms by applying responsive design principles and collaborating closely with cross-functional teams at FlexiSAF Edusoft Limited.

PROJECT

Callenda

Nigerian University of Technology and Management

- Engineered a unique productivity platform leveraging telephony integration to deliver scheduled voice reminders, incorporated real-time analytics dashboards, and gamified user engagement to incentivize task completion and strengthen daily habit consistency.

My Portfolio website

my-portfolio-ecc0.vercel.app/ • September 2025 - January 2026

- Engineered a dynamic portfolio website featuring intuitive navigation, optimized content layout, and seamless integration with social media channels to elevate digital visibility.

Beebling chatbot agent

Nigerian University of Technology and Management • bit.ly/3Pr3ai0 • April 2025 - June 2025

- Designed and implemented a comprehensive chatbot agent for Beebly via Engati, enhancing customer engagement and streamlining automated support services.
